ARTS & CRAFTS PROGRAM DESCRIPTION

During the years Estudio Sampere, Cuenca, has developed activities in the arts and crafts field with success. Cuenca is a city with an important tradition in both traditional crafts and contemporary arts and the Arts & Crafts program is based in this fact.

Students enroled in this special 10 lessons per week program will receive hands-on training in traditionat crafts such as weaving, hand crafted and wheel turned pottery and basketry. From the arts field training is available in painting and drawing as well as in traditional and contemporary dance, theater and corporal expression.
